

SEMI AUTOMATIC VERTICAL BALER 100 & 150

LOW HEIGHT FOR GREATER FLEXIBILITY
TOUCH SCREEN CONTROLS FOR EASE OF USE
SINGLE PHASE OPTION AVAILABLE (100)

The 100 & 150 Vertical Balers are manufactured by our partner Sacria Industries, an industry leading European manufacturer producing one of the most extensive ranges of recycling equipment.

These vertical balers are relatively compact in design and together with low overall height and larger feed opening provide great flexibility for operators.

Both models include unique touch screen controls for ease of use and easily accommodate suitable volumes of cardboard and plastic film for recycling.

ABOUT DUROGREEN

We are a leading recycling and waste management equipment and service specialist in Australia. With over 25 years of extensive industry experience behind us, we are able to assist businesses across all industries, regardless of type, size and complexity to improve the way they manage their waste and recycling.

Our approach is to think differently.

We recognise every business is unique and we therefore work with you to understand all of your existing equipment, systems and processes. We then work with you to design, develop and introduce new, exciting and often innovative ways to manage waste and recycling more effectively.

Importantly we work with you in order to deliver sustainable financial, operational and environmental improvements.

FEATURES

Designed with relatively small footprint, low overall height and larger feed opening for greater flexibility and ease of use.

Unique and easy to use touch screen controls, with the option to include multiple product selections (eg Cardboard and Plastic Film).

Special product retention claws for optimum compression & operation.
